 BENETEAU

## Your Dream Has Become A Reality

The Beneteau 411 - it's what you've been waiting for. Beautiful, luxurious and built for bluewater cruising. Designed by the renowned Groupe Finot, she exemplifies a true marriage of performance and beauty, combining a fast hull with a striking traditional and classic interior. Setting the highest standards in safety and construction, the 411 offers you solid peace of mind.

### **Brilliant Engineering.**

Her powerful hull is made up entirely of hand laid fiberglass and is protected by vinylester resin - which virtually eliminates the possibility of osmosis.

With the bulb/fin keel, maximum stability and efficiency on all points of sail are achieved by her low center of gravity. Whether you're solo or with a crew of family and friends,

the standard in-mast furling main and roller furling genoa provide efficiency and true ease of handling. Only the highest quality hardware is installed on her well laid out deck. And, you'll appreciate the location of the genoa sheet winches - accessible and

within an arm's reach of the helm.

Your sense of security underway is reinforced by the beautiful teak capped bulwark, wide walkways, handrails, double lifelines and Beneteau's molded non-skid deck surfaces.

A standard three-blade prop gives the 411 excellent maneuverability under power, making docking a breeze.

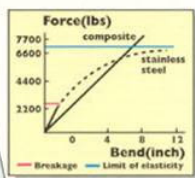

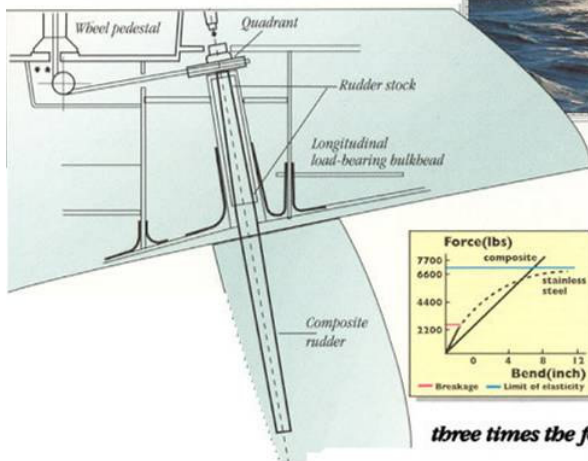

And you'll love the feel of her large leather covered wheel, providing precise and easy steering under sail or power.

**Comfort On The Water.** The large cockpit with teak inlaid seats is designed for maximum comfort while providing safety at sea. The pedestal console allows ample space to install your choice of electronics. While enjoying beautiful summer days under sail, you'll love the dual-leaf cockpit table containing a large molded storage area - perfect for holding drinks and snacks.

And there's plenty of space to stow gear in the large cockpit lockers, whether you're going on a weekend cruise or an extended ocean voyage.

After a pleasureable day of sailing, going for a swim is easy and convenient with the extra wide aft swim platform and ladder, walk-through

transom, and standard cockpit shower.

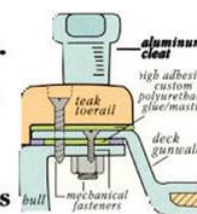

*Beneteau's patented composite rudderstock can withstand nearly*

*three times the force of a stainless steel shaft.*

### A Tradition Of Meticulous Craftsmanship.

Below, her spacious and efficient layout pampers you, making use of every nook and cranny. An abundance of natural light and ventilation floods the interior through many deck hatches, portholes and dorade vents.

The 411's rich, handcrafted cherry-stained joinerwork is extraordinary

*You can sail with complete confidence in your Beneteau hull to deck joint.*

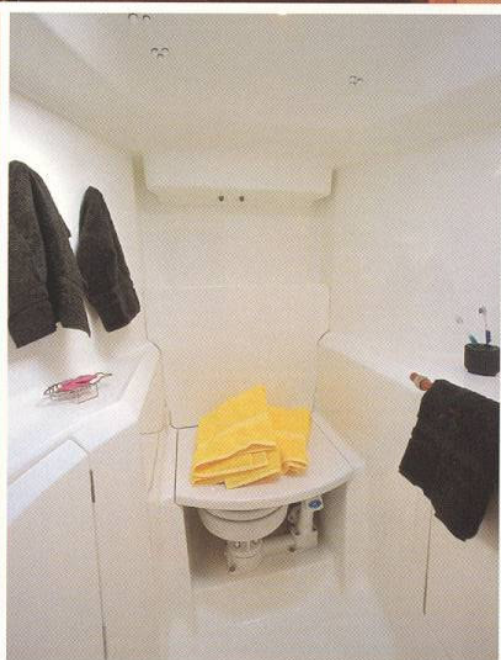

- another example of the fine woodwork that has become Beneteau's hallmark over the last century.

Whether you choose a two or three-cabin layout, the 411 features roomy companionways, large cabins and plenty of storage throughout. All of this is accented with richly detailed and highly finished Beneteau cabinetry. You'll find the space below efficiently utilized with

a spacious salon area and up to 6'4" headroom.

Designed for entertaining or enjoying a gourmet meal, the salon table is very accommodating - seating up to six people, or you can remove the inner leaf and have a cocktail table with plenty of room for games and snacks. Sit back on the settee's luxurious cushions and relax with family and friends.
